

INTERNATIONAL DIGITAL ENERGY EXPO 2024

September 8-11, 2024
Shenzhen Convention & Exhibition Center

Supported by

Shenzhen Municipal Government, P.R. China

China Electricity Council, P.R. China

China Energy Research Society, P.R. China

Development and Reform Commission of Shenzhen Municipality, P.R. China

Hosted by

Shenzhen Investment Holdings Co., Ltd.

Shenzhen Energy Corporation

Shenzhen Capital Holdings Co., Ltd.

Organized by

Shenzhen Convention & Exhibition Center Management Co., Ltd.

Shenzhen Enterprise Service Group

Southern Power Grid Digital Media Technology Co., Ltd.

Shenzhen New Energy Storage Industry Association

Co-organized by

Huawei Digital Power Technology Co., Ltd.

Sunwoda Electronic Co., Ltd.

Towngas Smart Energy Co., Ltd.

**Where
the future of the
digital energy industry
is defined and
actioned**

407

Exhibitors

60,000m²

Exhibition Area

68,000

Professional Visitors

100+

Countries Represented

2,000+

Experts & Scholars

11,105

Media Coverage

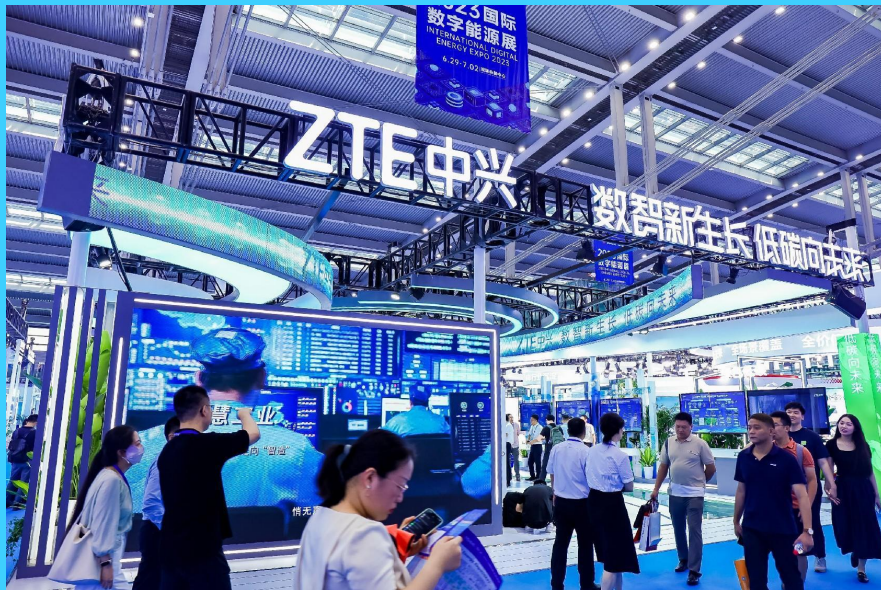

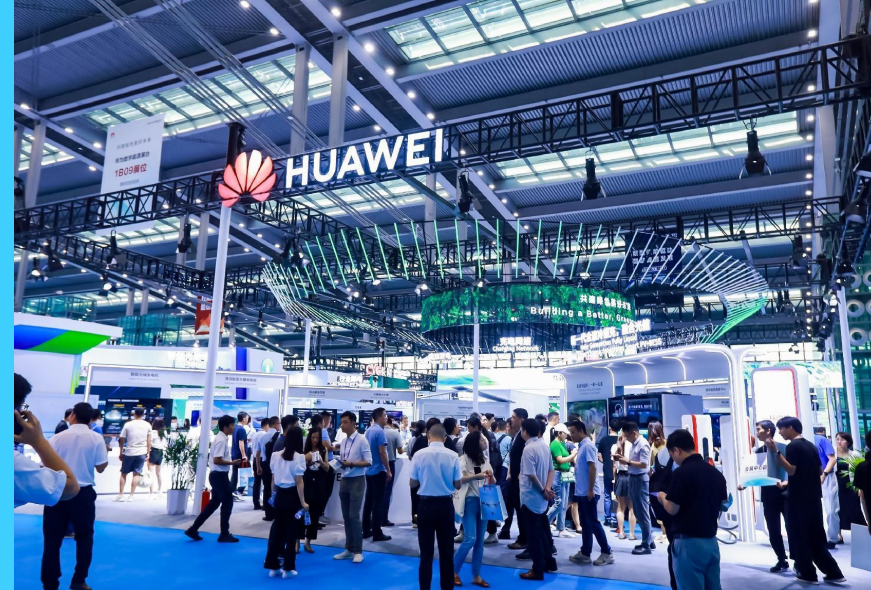

37M+

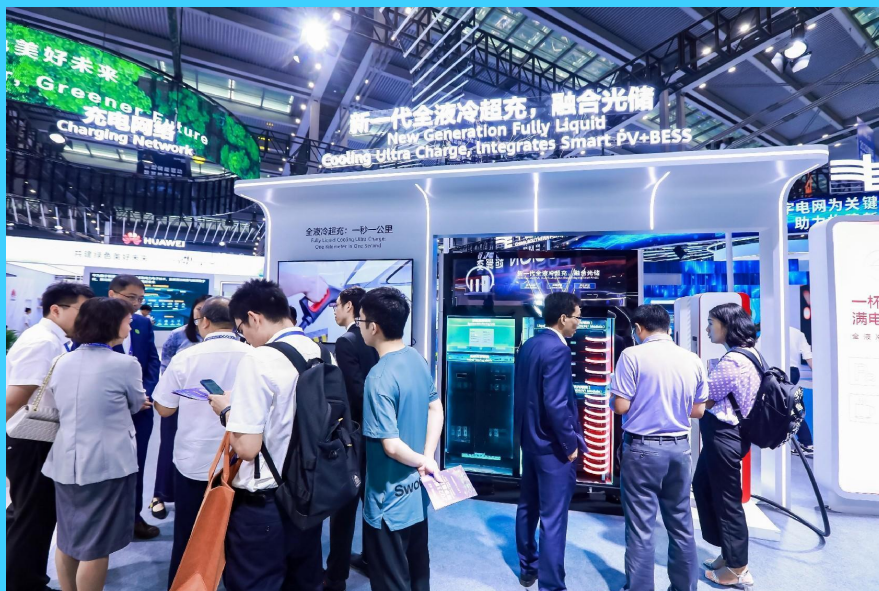

Topic Views

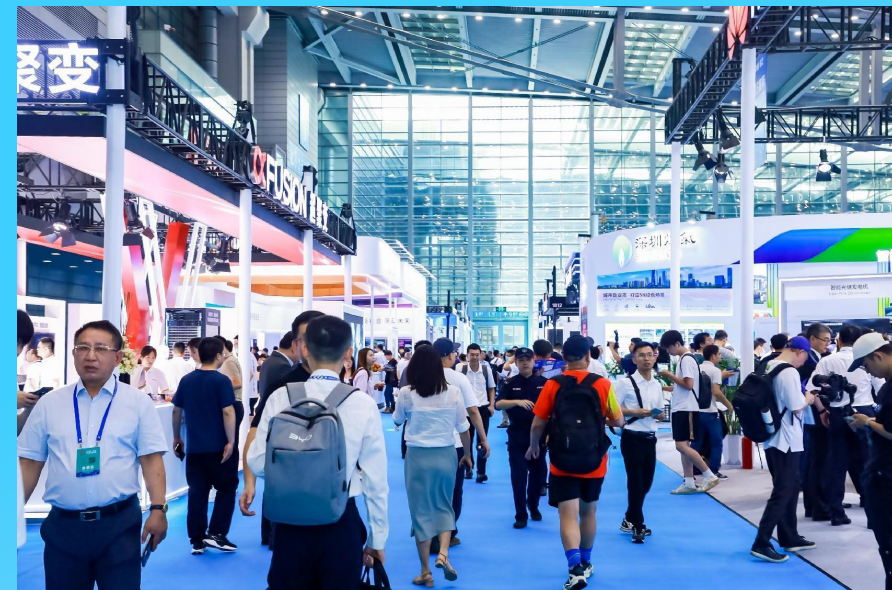

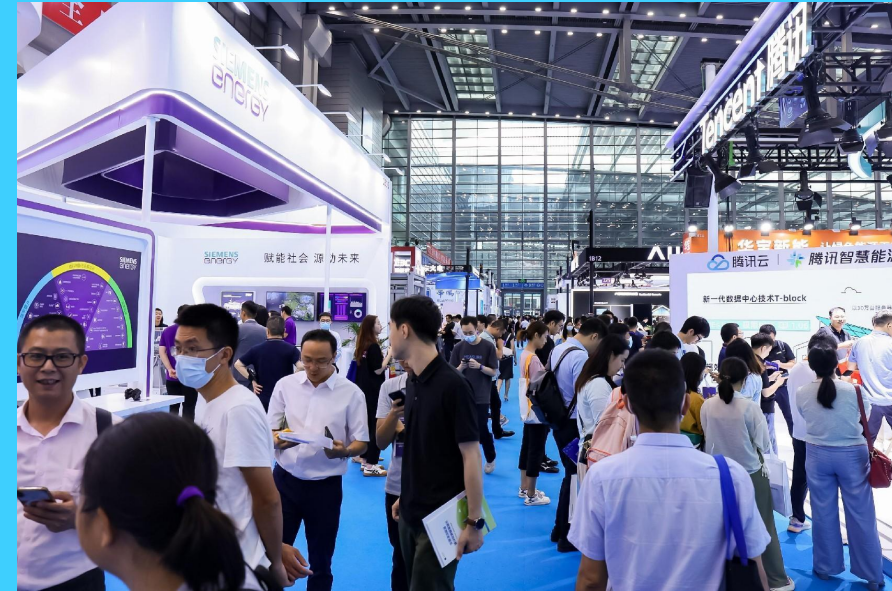

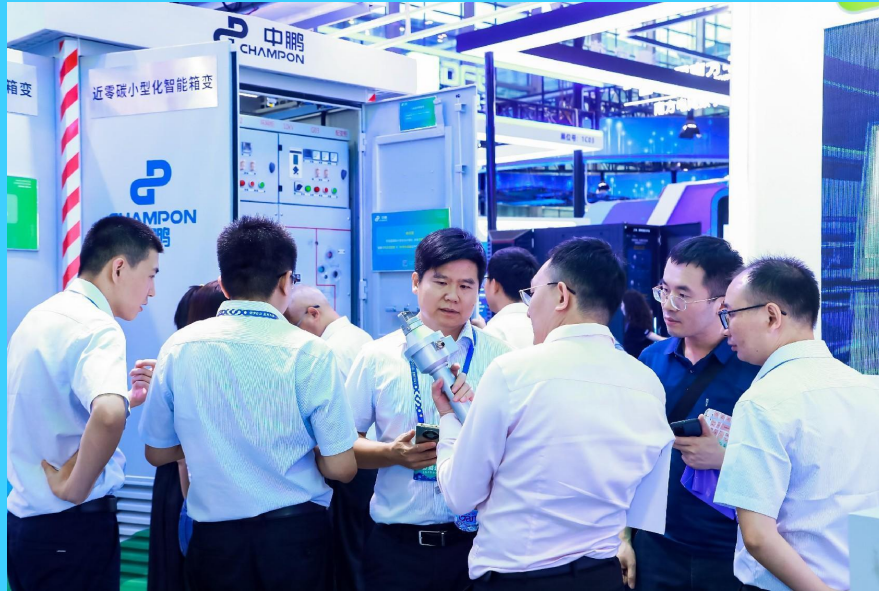

92M+

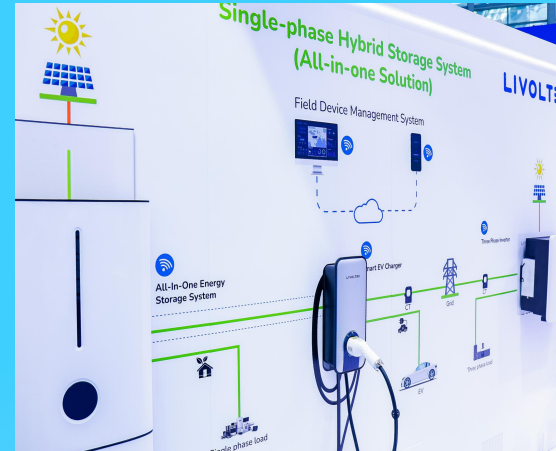

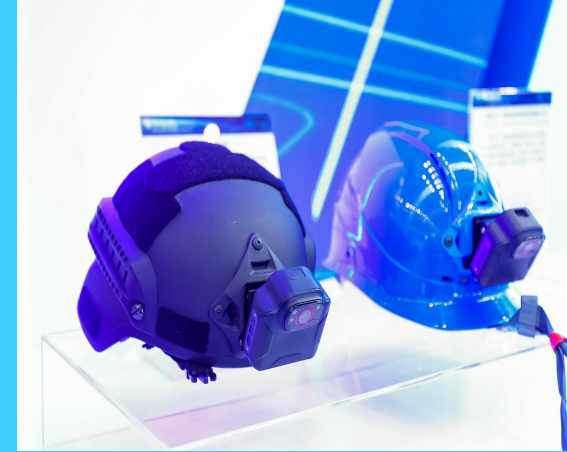

Media Reach

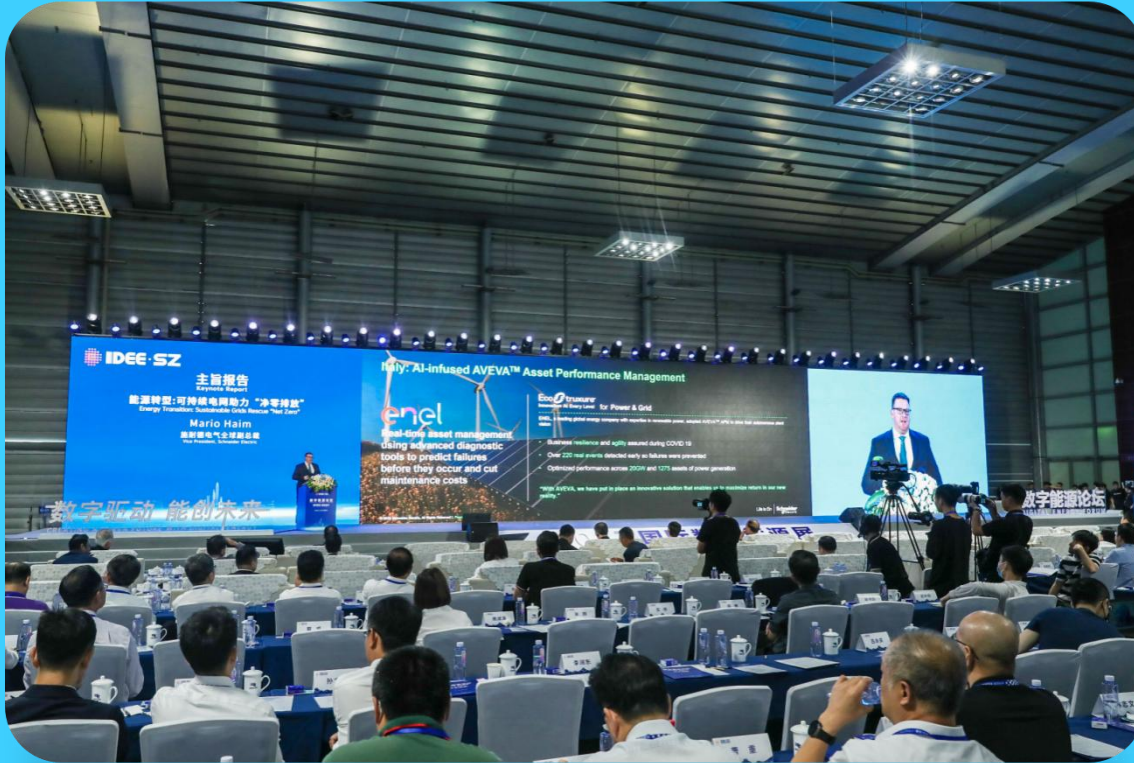

Electric Power System

Green tech for power generation, technologies for green and smart grid, smart power distribution terminals

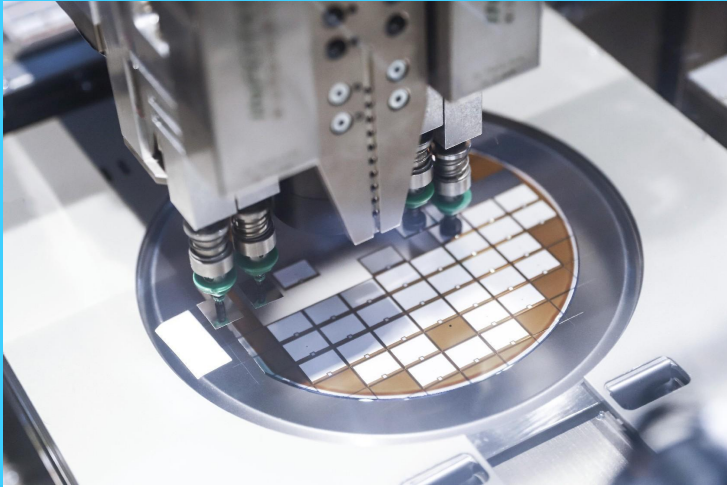

Energy Storage

Technologies and services for ultra-fast charging & discharging, virtual power plants, industrial chain of electric vehicle charging infrastructure

New Energy

Tech innovation and solutions for photovoltaics, hydrogen, wind power, geothermal energy

Core Components of Energy Storage

Inverters, controllers, power semiconductors & materials

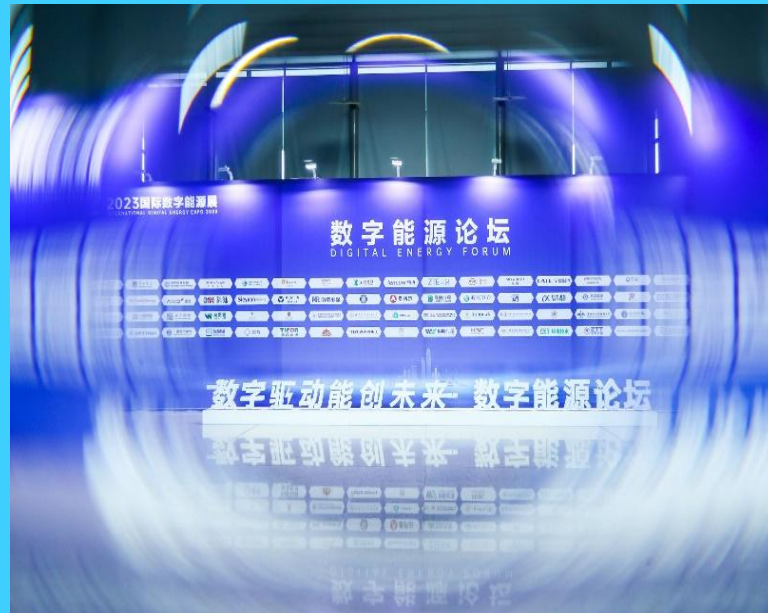

Digitalization in Energy

Digital technologies in the energy sector including big data analysis, cloud computing, sensing & intelligent decision-making system, internet of things, smart buildings, data management

Energy Support Services

Smart logistics & transport services, green finance, academic & scientific research results, industrial designs, intellectual property rights protection services

Global Green Energy Investment Summit

BUILD AWARENESS

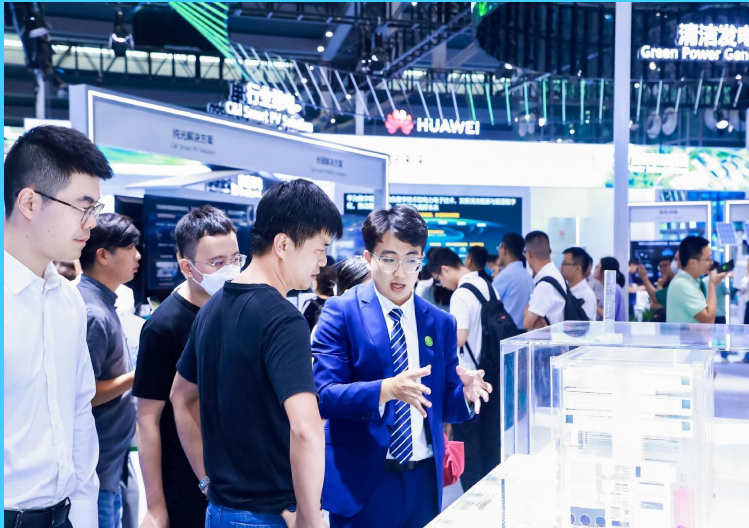

Build your company's profile and increase your brand awareness within the sector.

MEET NEW CUSTOMERS

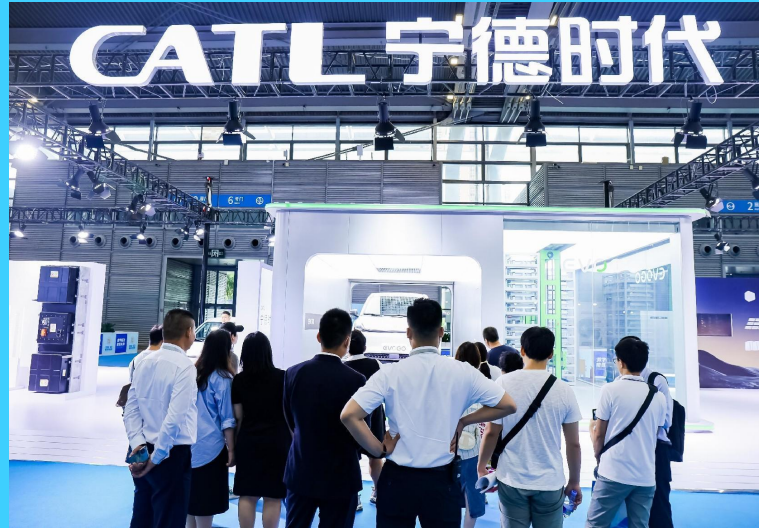

Meet face-to-face with decision-makers. IDEE is where the industry meets to talk business and make deals.

EXHIBIT WITH TOP BRANDS

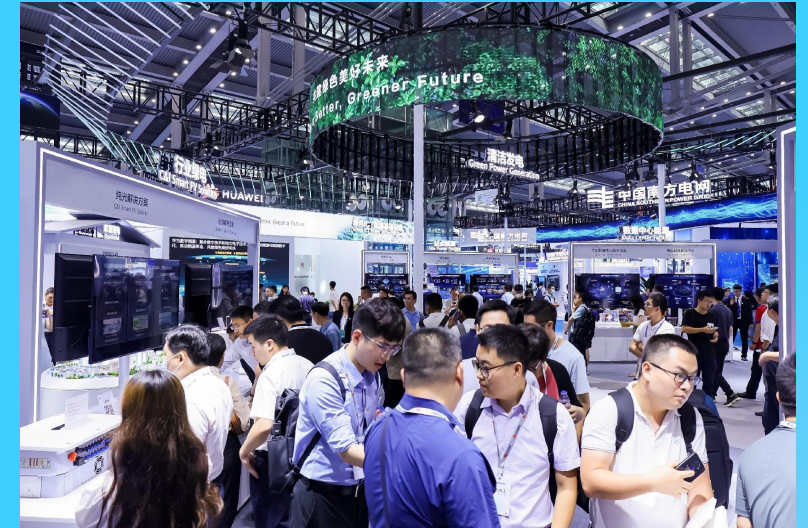

Ground-breaking technology is front and centre at IDEE. It's where companies of all sizes – from start-ups to global giants – explore the next transformative tech trend.

**BUILD POWERFUL
NEW CONNECTIONS**

**STAY AHEAD OF
THE CURVE**

EMBRACE NEW TRENDS

Shenzhen ranks as the most innovative city in China.

Shenzhen is the birthplace of tech giants such as Huawei, BYD and Tencent.

Shenzhen's carbon trading market ranks 1st in China in terms of market liquidity.

Shenzhen has been the top performer in terms of electricity availability in China since 2019.

Shenzhen becomes one of the Chinese cities with the largest electric vehicle charging network.

Shenzhen enjoys the most complete new energy vehicle industry chain in the world.

Shenzhen tops the list of Hurun China New Energy Cities 2023.
